DETAILED ACTION

This application was filed 8/21/2006 and is a 371 of PCT/IN04/00347 (11/10/2004) which claims benefit of 60/523872 (11/20/2003) and India 1199/MUM/2003 (11/20/2003). Claims 1-56 are before the examiner.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-56 are rejected under 35 U.S.C. 102(e) as being anticipated by 7393957, 6878713 and 6964966 (DeSouza). De Souza teaches in 7393957 the instantly claimed compounds, salts and polymorphs (see the claims and page 26 line 65). DeSouza 6878713 teaches the instantly claimed compounds/salts as pharmaceutical compositions and methods of treating bacterial infections. The instantly claimed polymorphs, once placed into a pharmaceutical composition which includes water, would lose their special properties as polymorphs. Also, when placed into a body for treatment of infections, the compounds would no longer be special polymorphic forms. Due to this, the compositions and methods of treatment are fully encompassed by the '713 patent.

The applied reference has a common inventors with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.
